

We are looking for **PHP Developers**, dedicated to the craft, writing codes that they are proud of and can hit the ground running. You will be a part of a full-stack creative team of Keystone Consulting and Thalento® - an international provider of technologies and solutions in the area of human resources.

You will be responsible for all aspects of the ongoing software development: from the initial specification, through developing to testing and finally launching.

Place of work: office in Katowice / remote work from any location in Poland/ office in Hasselt, Belgium

Responsibilities:

- Contributing in development of system architecture and in improvement and upgrading of existing Thalento® solutions and applications
- Execution of new projects based on PHP and similar technologies
- Developing software that is used daily by many prestigious customers and thousands of HR users

Requirements:

- Sound knowledge of PHP, HTML, CSS and JavaScript
- Practical knowledge of MySQL databases
- Professional experience at a similar or related position
- Good knowledge of English
- Creativity, initiative
- Good organisation of your own work: effective planning and implementation of tasks
- Interest in the subject of HR will be a great asset

We can offer you:

- Work in a dynamically developing partner network with international market position
- Professional trainings in the framework of knowledge and competence development programmes as well as support technologies
- Work in an international team, learning from experts and direct influence on the company's products
- Possibility to use the latest technological solutions
- Responsibility for the whole software development process.

If you are interested in our offer, please send your application (cv, cover letter) in English language to: rekrutacja@keystone.com.pl

We ensure full confidentiality of the submitted applications.
