

Aktualnie prowadzimy projekt rekrutacyjny dla naszego Klienta z sektora IT i **poszukujemy kandydatów na stanowisko [Junior Android Developer](#)**

Miejsce pracy: Warszawa Centrum

Forma zatrudnienia: umowa o pracę, udział w projekcie długoterminowym

Atrakcyjne wynagrodzenie – 7000-9000 brutto

Opis stanowiska:

In an agile team you are developing innovative Apps for Android. You are an essential part of our projects from the very first scratches until the final implementation of the new App.

Wymagania:

Ideally your profile looks somewhat like this:

- At least 1 year of professional experiences in developing Android Apps
- University degree in Computer Sciences or related professional education
- First experiences in test driven development, Unit Tests
- Frist practical experiences with issue tracking systems like JIRA
- Basic knowledge of object oriented programming and design
- Familiarity with 3rd party libraries that help speed up the development and decrease maintenance
- Reference applications in Google Play Store are a plus
