

Aktualnie prowadzimy projekt rekrutacyjny dla naszego Klienta z sektora IT i **poszukujemy kandydatów na stanowisko Junior iOS Developer**

Miejsce pracy: Warszawa Centrum

Forma zatrudnienia: umowa o pracę, udział w projekcie długoterminowym

Atrakcyjne wynagrodzenie – 7000-9000 brutto

Opis stanowiska:

In an agile team you are developing innovative Apps for iPhone, iPad and Apple Watch.

You are an essential part of our projects from the very first scratches until the final implementation of the new App.

Wymagania:

Ideally your profile looks somewhat like this:

- At least 1 year of professional experiences in iOS development with Objective-C and SWIFT
- First experiences in test driven development, Unit Tests, CI and CD
- First practical experiences with issue tracking systems like JIRA
- Overview and basic knowledge of relevant technologies, frameworks, tools and specific design patterns in iOS development
- Passion for new technologies and complex problem solving
- First experience working in agile teams with agile methodologies
- Very good communication and team player skills
- Fluent English
