

Start your 3D career in a Swedish company - Learn and work in the forefront of interactive 3D!

What

Work on our new platform for universal, interactive 3D product experiences, exploring the latest in web-based 3D/VR/AR/XR tech and design. Learn more about it here: <https://3ngage.se>

Why

Spook is a Swedish company with offices in Gothenburg and beautiful old Mokotow. We're a small, informal team with a lot of energy and drive. We're very experienced so you can learn a lot from us.

We work for well-known international companies, such as Visa, Autodesk, Electrolux and Simrad. Read more about us on <http://spook.se>

How

Our work is very innovative and but also tested and confirmed by famous universities like the Stockholm School of Economics, The Royal Institute of Technology and the Swedish Institute for Innovative Retailing. We're a start up on the bleeding edge of technology, but what we're doing is proven and smart.

Who

We're looking for full-time employees as well as freelancers. Right now, we need:

CGI / 3D / XR

- Modelling & optimization Superheroes
- Interior Design Gods
- Materials, texturing, lighting Wizards

Tech Development

- JavaScript Innovators
- WebXR Fantasts
- Back-end & Server-side Gurus
- Data analytics Warriors

Oh, and you need to be pretty good with English.

Ping us on krystian@spook.se and write *APPLICATION* in the title.

We're looking forward to getting to know you!
