

Junior Java Developer

Who we are

We are an award-winning innovative FinTech firm with a passion for Artificial Intelligence. We are working with a number of large international banks like Standard Chartered Bank, OCBC Bank and other to give them powerful tools to combat Money Laundering and Terrorist Financing. Our innovation has brought us the support of leading Venture Capital Funds from Silicon Valley and Singapore.

Who are we looking for

Capitalizing on our success, we are growing our multi-talented team bigger and stronger, and today we are looking for a motivated **Junior Java Developer** who will contribute to our Machine Learning based solution.

Tasks include:

- Participate in planning, definition, and high-level design of the solution
- Develop AML (Anti-Money Laundering) platform by using the latest technologies of the top-notch JVM-based stack: Java 8 (soon to be migrated to Java 11), Spring Boot, PostgreSQL, Apache Spark, Docker, Angular 6
- Construct tools for text analysis (Natural Language Processing)
- Build the necessary components to integrate with clients' systems
- Test and develop deep-learning networks
- Use the top of the line tools: track your Scrum stories in JIRA, keep your code and merge requests in GitLab, use Jenkins for automated building and testing, analyse code with SonarQube and keep artifacts in Artifactory

Requirements:

- 0-3 years' experience in software development in Java
- Ability to learn quickly and communicate clearly
- Fluency (verbal and written) in English and Polish
- Knowledge of design standards
- Practical understanding of TDD (Test Driven Development)
- Able to apply the right / relevant technologies to solve problems
- Understanding of databases, big data and how they relate to each other
- Experience in working within the Linux environment
- Knowledge of the principles of functional programming
- Practical experience in designing / programming large systems

We offer:

- Have an actual impact of how biggest banks around the world are stopping money laundering and terrorism financing activities!
- Work however you like: from the office or home office (remote work)
- Benefit from the attractive Employee Stock Ownership Plan
- Get access to the newest ideas and concepts by attending top Tech/IT conferences, meetups and networking events
- Take part in regular get-togethers, including seasonal parties, international meetings etc.

To apply*, send your CV/Resume to cv@silenteight.com with the title “Junior Java Developer – Poland”.
