

Dear WWSI Students,

I am setting up a company in Poland: Met Scientific Systems International SP. Z.O.O.
We will need to engage the services of software programmers and will need to employ at least one.

Required Experience: someone with experience in Microsoft and Linux environment and able to code in multiple languages: C++ / Python/.Net, and also experience in SQL Database is necessary.

Our company's area of activity is Environment and Weather Monitoring, though we plan to expand our scope soon.

I look forward to getting your response.

My cell phone in Poland: 729 476 863
info@metscientific.com

Regards.

Alfred Iguh
